The screenshot shows the eBay Motors website interface. At the top right, there are navigation links: Buy, Sell, My eBay, Research, and Help. The eBay Motors logo is on the left, followed by a user greeting: "Hello xcellentuser! (Sign out.) | You have 1 alert." and links for "eBay Home" and "Site Map". Below this is a search bar with a dropdown menu set to "All of eBay Motors" and a "Search" button, with a link to "Advanced Search". A horizontal menu below the search bar lists categories: Cars & Trucks, Parts & Accessories, Motorcycles, Powersports, Boats, and Other Vehicles. The main content area has a blue header with the word "Congratulations". Below the header, there is a green checkmark icon and the text: "Congratulations! Your item is listed for sale. It may take up to eight hours for your vehicle listing to appear in search results." This is followed by the text: "View your listing: - Brembo 25740 Front Disc Brake Rotor - 250593473930" and "You can Track your listing in my eBay". There are two buttons: "Sell similar" and "Sell a different item". At the bottom of the main content area, it says "Share your eBay items with friends:" followed by a Facebook icon and a help icon.

Blizzak LM-25 w/UNI-T

Manufacturer:	Bridgestone	Sidewall:	BW
Tire Type:	Winter	Rim Width Min:	9
Tire Size:	265/35R19	Rim Width Max:	10.15
Width:	265	Weight:	30 lbs
Rim Diameter:	19	Tread Depth:	11
Aspect Ratio:	35	Tread Width:	10.7
Load Index:	94	Overall Diameter:	9.6
Speed Rating:	V	Revs Per Mile:	26.4
Speed Rating Number:	9		

Model Description:
The Bridgestone Blizzak LM-25, a directional, studless H- and V-speed rated winter tire, delivers excellent snow and ice traction for high performance vehicles. With its 3D sipes, you can rely on the LM-25 for great dry performance and UNI-T technology provides well-balanced performance in wet conditions. Silica added to the tread further enhances winter and wet traction so you get the total performance package you need. Innovative Tire Design - A Comprehensive Tire Design Method This method improves handling in wet or dry conditions and reduces irregular treadwear by combining an ideal tread design, casing shape, materials and construction. Innovative Roundness - Rounder Is Better Rounder overall tire shape provides better balance for wet or dry handling. Innovative Compound - Longer Is Stronger L.L. Carbon utilizes a special form of molecular re-engineered carbon black, a key factor in improving tire wear while enhancing wet performance. 3D Sipes Designed to enhance dry performance while maintaining snow, ice and wet traction. Directional Tread Pattern Helps reduce the risk of hydroplaning by efficiently evacuating water. Zig-zag Sipes Contributes to upgraded traction on ice through drainage and edge effect. Spiral Wrap Spiral Wrap is a continuous nylon wrap that encircles the whole tire, helping the tire hold its original shape to improve high speed capability.

TURBO LISTER

1. To add parts and compatibility details, create a new parts listing in the *Create New Item* window and select an eBay Motors category.

The screenshot displays the Turbo Lister interface for creating a new item listing. The interface is organized into several panels:

- Title and Category:** Fields for Title, Subtitle, Category (set to 170583 --> eBay Motors > Parts & Accessories > Car & Truck Parts > Parts Test Category), 2nd Category, Store Category (Other), and 2nd Store Category (None).
- Details:** A section for adding product details to help buyers find the item. It includes a search bar for part numbers or keywords and fields for item specifics and compatibility.
- Pictures and Description:** A section for adding pictures (with a recommended size of at least 1000 pixels wide or long) and a description. It features a description builder and a description field.
- Inventory Information:** A section for adding a custom label.
- Selling Format:** Configuration for the listing type (Auction), start price, reserve price, buy it now price, quantity (1), and duration (7 days). It also includes options for private listing and donating a percentage of sale.
- Listing Upgrades:** Options for value pack, gallery plus, picture pack, border, and highlight.
- Shipping Options:** Configuration for domestic and international shipping, including shipping services, costs, local pickup, and handling time.
- Payment Methods:** A section for configuring payment methods.

- After selecting a category, the compatibility for that category will be shown, if it exists. Click *Next* to add part details.

If compatibility is not an option, then our catalog does not have information for this item, and you will need to add the parts and compatibility details (see slide 6 for *Specify parts and compatibility details*).

When finished adding item specifics, click *Done*. You'll be taken back to the *Create New Item* form.

Enter the rest of the listing information for this item, then click *Save*.

If the product you searched for does not exist in our catalog, proceed to the next section to learn how to add parts and compatibility details to a listing.

6. Specify parts and compatibility details manually

Some products do not yet exist in our catalog, but you can specify parts and compatibility details for products so that you can add them to your listing.

When a chosen category does not have catalog information, after clicking *Next* in the *Select Category* window, you will be directed to the *Specify Parts Compatibility* window.

1. In the *Specify Parts Compatibility* window, use the drop-down menus to select predefined characteristics for the vehicles that use this part, i.e. make, model, year, trim and engine). Selections do not have to be made for all the parameters, but the more you use the more easily buyers will find your listings.
2. Click *Add*. You need to add at least two compatibilities.
3. To add notes for the compatibilities, right-click the *Notes* field and select *Add Note*. Enter a description in the *Compatibility Note* window and then click *OK*.
4. When finished adding the compatibility details, click *Next* so you can add more information about the product using item specifics.

Add the appropriate item specifics for the item by using the drop-down menus and fields to define characteristics about the item. When you click *Done*, you will return to the *Create New Item* form.

5. Enter the rest of the listing information for this item, then click *Save*.
