3. In the *Find Your Parts and Accessories* window, choose the *Search by Part Details* or *Search by Vehicle* tab. The Search by Vehicle tab has additional options (i.e. make, model, year) that further define your search parameters.

Use the drop-down menus to select predefined characteristics, or enter a part number or keyword(s) in the field.

The more search parameters you use, the better your search results. Click Search.

6. Specify parts and compatibility details manually

Some products do not yet exist in our catalog, but you can specify parts and compatibility details for products so that you can add them to your listing.

When a chosen category does not have catalog information, after clicking *Next* in the *Select Category* window, you will be directed to the *Specify Parts Compatibility* window.

- 1. In the *Specify Parts Compatibility* window, use the drop-down menus to select predefined characteristics for the vehicles that use this part, i.e. make, model, year, trim and engine). Selections do not have to be made for all the parameters, but the more you use the more easily buyers will find your listings.
- 2. Click Add. You need to add at least two compatibilities.
- 3. To add notes for the compatibilities, right-click the *Notes* field and select *Add Note*. Enter a description in the *Compatibility Note* window and then click *OK*.
- 4. When finished adding the compatibility details, click *Next* so you can add more information about the product using item specifics.

Add the appropriate item specifics for the item by using the drop-down menus and fields to define characteristics about the item. When you click *Done*, you will return to the *Create New Item* form.

5. Enter the rest of the listing information for this item, then click *Save*.
